Professional Summary

Full Stack Web Developer and UI/UX Designer with hands-on experience in frontend development, MERN stack applications, and mobile app UI design. Skilled in building responsive web interfaces using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in designing modern mobile app screens, Play Store mockups, and user-friendly interfaces using Figma. Passionate about clean UI design, scalable web applications, and modern development workflows.

Technical Skills

Frontend Development: HTML5, CSS3, JavaScript ES6, React.js, Tailwind CSS, Responsive Design

Backend Development: Node.js, Express.js, MongoDB, REST APIs, API Integration

UI/UX Design: Figma, Mobile App UI Design, Wireframing, Play Store Mockups, App Presentation Design

DevOps Tools: Git, GitHub, VS Code, Browser Tool, Linux (Ubuntu) Postman, MongoDB Compass, Overleaf

Knowledge of Programming Languages: JavaScript, C, C++

Additional : AI Prompt Engineering, App Development (Learning)

Professional Experience

Full Stack Web Developer UI/UX Designer Intern May 2026 – Present *N2X Systems Software House*

- Designed mobile app interfaces, created Play Store mockups, and contributed to full-stack web application development.

Frontend Web Developer Intern

Feb 2026 – Apr 2026 *Hitech Software House*

- Developed responsive web interfaces using React.js and collaborated on UI/UX improvements and API integrations.

Projects

Student Management System (LMS) — MERN Stack

- Developed a role-based Learning Management System with dedicated Admin, Faculty, and Student portals.
- Implemented attendance tracking, assignment submissions, grading, and timetable management modules.
- Built student and faculty management features to efficiently handle academic records and user data.
- Developed a centralized announcement system with role-based access and visibility controls.
- Designed responsive dashboards and modern user interfaces using React.js and Tailwind CSS.
- Integrated RESTful APIs and MongoDB database operations for seamless data management.
- Implemented authentication and authorization mechanisms to ensure secure access control.

Premium Pearl Restaurant Management System — MERN Stack

- Developed a full-stack restaurant management system featuring a modern Black Gold user interface.
- Implemented QR code-based ordering, allowing customers to browse menus and place orders digitally.
- Built dynamic menu management with food categories, ratings, pricing, and detailed item descriptions.
- Developed shopping cart functionality, table reservations, and waiter tipping features.
- Created a centralized admin dashboard for monitoring orders, customers, tables, and daily operations.
- Implemented order tracking, waiter assignment, and order status management workflows.
- Designed scalable REST APIs and MongoDB database architecture to support restaurant operations efficiently.

Personal Portfolio Website — React.js, Tailwind CSS

- Developed a modern and fully responsive portfolio website using React.js and Tailwind CSS.

- Designed interactive user interfaces with smooth navigation and optimized user experience.
- Showcased professional projects, technical skills, certifications, and work experience.
- Optimized performance, responsiveness, and cross-browser compatibility across multiple devices.
- Implemented reusable React components following clean and maintainable frontend architecture.

Car Share Mobile App UI — Figma

- Designed complete mobile application interfaces for a car-sharing platform using Figma.
- Created intuitive booking, vehicle browsing, and profile management screens.
- Applied modern UI/UX principles to improve accessibility, usability, and visual consistency.
- Developed wireframes, interactive prototypes, and high-fidelity design mockups.
- Improved overall user flow and navigation experience throughout the application.

True Trucker App Mockups — Figma

- Designed professional Play Store screenshots and promotional mockups for the True Trucker application.
- Created visually engaging branding materials to enhance application presentation.
- Developed marketing-focused showcase designs highlighting key application features.
- Maintained consistency in typography, color schemes, and visual design elements.
- Optimized graphic assets for Play Store publishing and user engagement.

Education

ADP in Computer Science 2026 – Present Leads University, Lahore

Certifications Training

Full Stack Web Development	Arfa Tower PNY Trainings
DevOps Engineering	Arfa Tower NexSkills
UI/UX Design	Figma Mobile App UI Design, Wireframing, Mockups, and Modern Design Systems
